# If these walls could talk, they would...

...laugh at the good times, cry for the mournful times, cheer triumphantly at its successes, and scold those souls that befoul its interior. They'd give a long sigh like grandma or grandpa sitting in the old, creaking rocking chair. Slowly they'd rock, back and forth, fanning an old tattered church fan, and say, "Well my child, it all began a long time ago, when I was young and new and my paint still glistening. When the first soul walked my halls, how proud I was. Although great I was, there was something missing. Intergration came and all was well. Beautiful and magnificent I stood atop this hill. Generations came with a deep yearning for learning and left with their minds heavily laden with knowledge. Legacies were created in men and women alike." Now it's our time, the Hip Hop generation, to grow and make choices about the road ahead. Our Legacy Starts Here.

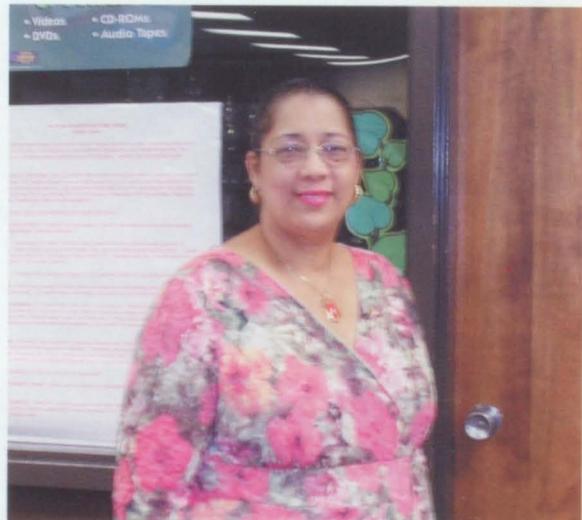

# Legacies

You and your parents may call it Northeast, but the school has actually held a host of names. Just ask your grandparents about some of them. Try back when football games were only \$1.00 or how about majority of the students being white. Think of no dress code. The main hairstyle of choice was an afro. Imagine seeing Coach Copeland with a 'fro.

This was the Northeast during the late 70's and early 80's. Many of us probably don't recognize graduates from Northeast past those who left our freshmen year. But if you look around, these are Northeast graduates everywhere: parents, coaches, teachers, janitors, campus police, and even principals. Their view is much different from ours.

When Mrs. Glover attended Northeast, the school was built for white children only. The school slowly became an all black school. She graduated from Northeast in 1971. Back then she wore afros, platform shoes, and bell bottom pants. Mrs. Glover is now the mother of one girl and one boy. She has been married for 23 years. She attended Macon State College for two years and went to Mercer University to major in music for two years. She then went to Georgia College for a special education degree in mental retardation. Her daughter Ariel is a sophomore this year.

Mrs. Jeffreys is a computer teacher at Northeast who has been working here for the past two years. She graduated in 1981, and the mother of one son. She and her husband have been married for 11 years. She attended Georgia State University. She completed six years with a Bachelors and Masters degree. Mrs. Jeffreys is a Delta.

Coach Mullen is a husband and the father of four children. He attended Fort Valley State University for four and half years to major in education. The styles that he remembers wearing were bellbottoms and stack heels. The school games were only a dollar.

Mrs. Lynch is the mother of one daughter, and has been married for 20 years. Things that she enjoys are socializing, reading, and traveling. Ms. Lynch attended Morris Brown College for her bachelor's degree and Novel Southeastern University for her masters. Back when she was in school the style was afros, pumps, and gauchos. The school was less strict and students exercised more rights.

Officer Johnson is a wife and mother of two daughters. She attended MSC, but left soon after finding out that she was pregnant. Her family life started very early. Officer Johnson then went into the military and it changed her path. She then went into security and now she is in law enforcement. The style she remembers were flips, mushroom, shaggy, straight legs, no sagging, izod, polo, and pumps. The of view of the school was that fights were rare; 60% black 40% white population. The prom also was held in the lunchroom. She graduated in 1980

# Time May Change Me,

Older, wiser and more than an institution in Macon and middle Georgia, Northeast Health Science Magnet High School is a model for hard work, vast knowledge and success. A new era dawned as the school made the transition from a boy/girl academy of the 1960's, to the joining of Mark Smith High School and Lasseter High School. The halls were painted, the desks brand spanking, and a new book smell filled the air for the first day. Thirty years later things are different. The new smell is only a memory. Campus police is vital to safety, and for a while our vending machines were broken into weekly.

Though Northeast has experienced many different changes the positives over-shine the negatives. Teaching is extremely highly regarded in our area and our sports teams are possibly the best. Once a new young coach "on the hill", Alvin J. Copeland has given this school pride and transformed our girls basketball team into a dynasty. Along with football and track and field, we are recognized as the premier school for physical success. Northeast is also a premier educational school. Winning countless awards in the academic field, our staff has changed us into a institution for knowledge.

# But I Can't Trace Time

Northeast is such an inspiring school that many of our teachers are former students. These are just a few.... and their reactions to these questions.

Erma Stevens:

Graduated in 1974

First taught at Northeast in 1985

Two teachers are still here since her graduation.

Vocational Building added since '74

Students took six classes a day in '74

Favorite subject is Literature (now teaches literature)

She was The Golden Star [newspaper] editor, and head typist

A and B student

*"More students successfully completed a 4 year or bachelor degree in a respective discipline"*

Robert Stevenson:

Graduated in 1991

First taught at Northeast in 2001

Nine teachers are still here since his graduation

Formerly we had use of 2 lunchrooms

Students had six classes a day in '91

Favroite subject was Social Studies (now he's an assistant principal)

He was The Golden Star [newspaper] editor, Golden eagle award winner

A and B student

*"Vaules of students have changed and there is a better administration than in my time"*

# FACES IN...

**Future nurses, professional athletes, teachers, and armed service leaders all walk the halls of Northeast on a daily basis, learning what it takes to succeed in the real world. Students at Northeast have big dreams, and big goals. Although they may seem idealistic to some, they have a plan to make their dreams come true. These students are determined to do what it takes to succeed in life, and no matter what obstacles will come their way, they refuse to quit, and to always remember to keep on keeping on.**

## ....THE CROWD

# Who's Getting A Job?

Now who's getting the jobs? Think about it, look around, it's not that hard! For the 2005-2006 school year, many students from Northeast High School ages of 15 to 18 started to take over the job industry. Many raiders and raiderettes can be found working at jobs such as fast food restaurants, pharmacies, or the mall between the hours of 3:00 P.M. and 10:00 P.M.. For most students having a job is a source of independence and freedom, and with this newfound freedom also comes responsibility. Like being on time for work, being able to adapt to someone else's rules besides your own, and being able to handle and get along with different types of people and their attitudes.

## WORKING WITH

## THE NORTHEAST RAIDERS

Hey! Isn't that what we as students deal with in high school? I guess what the teachers and administrators have been telling us is right: "How you perform in school will affect the way you perform in society". Also with this newfound responsibility you must be able to balance a social life (if you can afford to still have one), school, and after school activities. For most students it is hard to maintain everything, especially during midterms, final exams, SATs, and the graduation test. All of the extra stress can start to wear on a student's body: mentally, physically, and emotionally. So the question is, can you still handle the pressure?

## **"Things to Remember When Applying For a Job"**

1. Obtain an application in the right attire. (Sometimes you may get hired on the spot)
2. Reserve an interview date.
3. Have a typed resume.
4. Dress for the position or occasion.
5. Arrive at least 15 minutes early, to give yourself time to prepare.
6. Make sure to stand up, give a firm hand shake, and introduce yourself and keep eye contact.
7. At the end of the interview, thank the manager/boss for their time.
8. After the interview, make sure to call and check up on the position applied for.
9. Send a thank you letter at least one week after the interview.

## **You Know It's Time To Get A Job When...**

You have to make a life decision about lunch: to choose between eating lunch at school or waiting till you get home to eat.

You can't afford to buy bootleg CDs.

You bum five cents to a quarter in change everyday just to make a dollar.

You have to borrow money from your lil' brother.

You can't afford to buy an idea.

Men everywhere are now looking for a woman with a "laffy taffy". Women everywhere are looking for a "soldier". The criterion for dating, relationships, and appearances have changed since the last decade. So what exactly are the new criterion and views? A survey showed that the average girl rates the importance of looks (on a scale of 1-10) at 3. Guys on the other hand gave looks an average of 6.5.

# That was Then...

Compare Northeast today to the Northeast of yesteryear, and you'll find that some things have changed and some have stayed the same. When our parents and teachers were in high school they wore bell bottoms, straight leg pants, and pedal pushers. Everyone can agree that at least one person in their family had a Jheri Curl or a Pee Wee Herman. If someone wore their hair like that today he would seriously get cracked on. Though some things have changed, some have come back. For instance, gauchos are a big hit today. In an interview with Ms. Walker she revealed that Gauchos were a big hit in the late 80's and early 90's. Cars like Impalas, Mustangs, all types of older Cadillacs are now being fixed up with hot rims and stereo equipment by the guys. Hoopty no more. The ladies are fixing up their nails with exotic designs.

As you can see in the late 80's teens didn't care how their car looked just as long as they're riding.

Are those cookies I smell...NO, those are Zan's shoes!

In our mother's day she would simply put some polish on her nails and be done. As you can see above, Ariel thinks a little different. Shoes are even different now. Back in the day teens often only had two pairs of shoes – a white pair for school and a black pair for church on Sunday morning. Now teens have a pair of shoes for every outfit that they wear. There are shoes now that our parents wouldn't think to wear. Zan makes a perfect example of that – the bottoms of his shoes smell like cookies.

Are Ariel's nails creative or what?

# Raiders!!!! Start Your engines!!!!

Niteria Patterson's 99' Ford Explorer

What's it like being on the road?  
"It's alright to have a ride but, I don't want to drive all the time."  
Has been driving for a year.

One way teenagers express themselves is through their cars. Nothing is quite as special as that first car. Driving is exciting for first timers. Here are some students and their cars. Most of the time you can tell a great deal about a person by the car they drive and how they take care of it, but if someone just bought it for them, then the calculations might not be right.

Drivers licenses are no issue for these students. Just wait patiently for 16 years of age, and it's "Free at last!" What doesn't go through people's minds is the responsibility that comes with getting a car. Insurance isn't cheap nowadays, and neither is gas! Since when did money grow on trees? Keep it on the road kids, and pay attention or they'll take that precious card away and raise your rates. Be thrifty with the joyrides too, or you'll end up putting all of your hard earned green into your tank.

Tavores J. Ware (TJ) 95' green Honda Accord

What's it like being on the road?  
"It's a good experience because you get to know your surroundings. You find new places."  
Has been driving for two years.

Vacarro Tharpe 99' Burgundy Yukon

What's it like being on the road?  
"It feels good to be riding big but, you gotta have big bread for that gas you know. Real talk: I plan on getting a smaller car 'cause the one I have now uses up too much gas!"

Ian Ricks 95' white Mazda

What's it like to be on the road?  
"Aggravating..... You have to be extremely aware and you can't multi-task unless you got skills."

Has been driving for three years.

I advise you all to limit the places you go, and ride together. Car-pool to save gas and money. Don't let riders freeload, make 'em chip! The best place to get gas in 2005/06 is Kroger gas station. Make sure you use your Kroger Plus card. You can save 10 cents per gallon. Having a car is a privilege so take care of it.

# Stop and think.....

Before even starting the car why don't you fix your mirrors? Put your seat belt on and look at your surroundings! I mean do kids actually think before they start their car? Use your head.....! You have a mind so use it. They are not there to go to waste. Next time you get in your car think about what I just said about being very cautious. It's better to be safe than sorry.

## How about buying your first car the smart

way: on how it's running instead of how it looks. Come on now, I'm sure you have heard of the saying "don't judge a book by its cover." Instead of trying to impress people your first concern should be on how the car is running. You should think of it as something to get you around, not to show off. I'm sure that's what a lot of you are thinking right now.

These are just some helpful tips on how you should think when it comes to a responsibility of you having a car. It's a privilege but, it also can be dangerous if you are just beginning. If you don't take my advice take the advice on the positive people that drive like the fewer kids on this page. Read their quotes.

Andrea Whitby

What's it like being on the road?

"Well, it's nice to go places on your own but, there are dangerous drivers out there. All my advice is for those drivers to be careful because a lot of people are very careless.

I have been driving for two years and I'm still learning.

Gabe Davis 05' Silver Jeep Cherokee

What's it like being on the road?  
"It's great. It's like a good feeling to have your own car, like wow, finally something that you can call your own.

Bennie Crawford

What's it like being on the road?

"I like ridin' through a crowd and have everybody lookin' when you get out . They finally see who it is, they like that young dude ridin' good. Your mission is complete!  
YOU STUNTIN'!!!!"

Amberia Robertson 95' Turquoise Honda Civic

What's it like being on the road?

"It's a feeling of you being free. There is nothing like your own car because once you get it, it's yours to take care of no matter how ugly it may be. There's nothing like having your own car."  
Has been driving for two years.

# Ready!!!!!! Set!!!!!! Go!!!!!!

# CLUB LUNCH

*So you are standing in the line waiting to get in. There is a huge crowd. People are trying to stick in front of you and the security guard is sending people to the back. Then the usual crowd arrives "Fashionably Late". Some days you might hear music from the outside and in the gym the boys are putting on a show. But you can't get in without your I.D. Sounds like Club Money's or the Roc. Nope, it is just lunchtime at Northeast.*

**COACH DANIELY IS THE SECURITY GUARD FOR CLUB LUNCH. HE HAS BEEN DOING THIS JOB FOR A WHILE SO HIS EXPERIENCE ADDS A LOT TO HIS QUALIFICATIONS. HE MAKES SURE YOU DON'T CUT IN LINE OR GO THROUGH THE VIP DOOR. OVERALL YOU BETTER BE ON YOUR PS AND QS.**

**UNDER 21 NO ENTRANCE. WRONG. NO SCHOOL I.D. MEANS NO ENTRANCE. IN ORDER TO GAIN ADMITTANCE INTO THE LUNCHROOM YOU NEED A I.D. THAT SAYS; FRESHMEN, SOPHMORE, JUNIOR, SENIOR OR TEMPORARY. NO I.D. NO SERVICE. THEN IF YOU LOSE IT YOU MUST PAY A FEE TO GET ANOTHER ONE.**

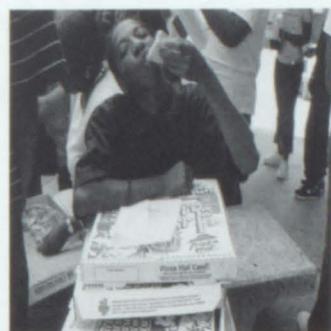

THEN THERE ARE THE LINES. THE CROWDS OF PEOPLE ALL STRUGGLING TO GET INTO THE ONE DOOR. PUSHING AND SHOVING IS GOING ON THE WHOLE TIME AS THE LINES JUST CONTINUE TO GET LONGER.

THEN YOU HAVE THOSE THAT DON'T EAT IN THE CAFETERIA. THEY EITHER GO TO THE GYM OR SIT OUTSIDE ACCORDING TO THE WEATHER. THEN THEY EAT FROM THE SNACK MACHNINES OR THEIR LUNCH FROM HOME.

THEN THERE WAS THE BIGGEST MYSTERY OF THE YEAR. THE SNACK MACHINE BANDIT. THANKS TO COACH ROGERS AND COACH HOGAN HE WAS CAUGHT. BUT HE LEFT HIS MARK, JUST LOOK AROUND WE ARE MISSING A SNACK MACHINE, DRINK MACHINE, AND THE OTHER SNACK MACHINE IS IN A CAGE

THEN THERE IS YOUR TABLE. YOU MAY JUST SIT WITH YOUR FRIENDS OR YOU MAY SIT WITH YOUR ORGANIZATION SUCH AS FOOTBALL PLAYERS, BASKETBALL PLAYERS, BAND, DECA, OR YOUR OWN SPECIAL ORGANIZATION. WHO SITS AT YOUR TABLE?

# *"Emancipate yourself from mental slavery;*

## Annual Black History Program "Was Worth It"

Ardacia Collier, Editor

The school goes wild as the Northeast Raiders enter the gymnasium for the 2006 Black History Program. It showcased the essence of a people displayed in a contemporary art. The program begins and the soul of our youth spill onto the audience with riveting dances and song, JROTC gun twirling and "Line One" stepping captivate the viewers. There was also a play headed up by our very own Gloria Aaron and mime by former Northeast students.

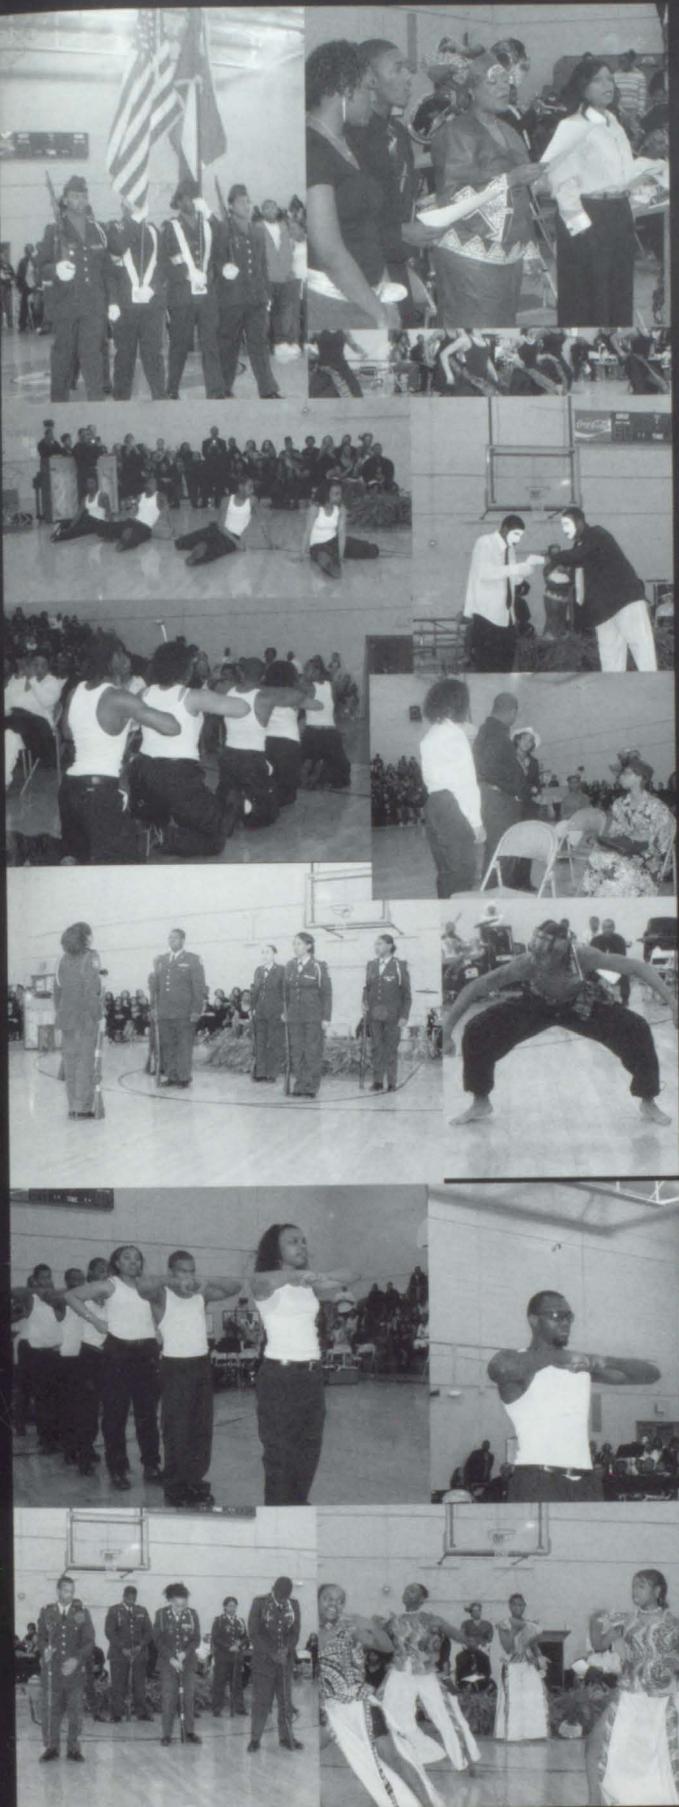

Music is the heart of the African American community, and without it the world would be a much different place. Hymns and spirituals helped slaves deal with the turmoil of their everyday lives of

working in the fields. The Northeast High Black History Choir mesmerizes all who listen. With their renditions of "No Man Works Like Him" and the "Fall Down" medley, the choir sings homage to the ones who struggled and went before them in the fight for freedom and civil rights. They were led by Mrs. Carter-McDonald. Mr. Morrell conducts the band in the Jazz tribute to the leaders of the past.

# *None but ourselves can free our minds."*

and shouted out the cries of their forefathers. Three Northeast graduates came to show their representation of the African culture. In traditional mime attire they engulfed students with their moving motions to "Order My Steps".

Stepping in the African American community originally represented the coming of age ceremonies, or rites of passage, when a young man comes into manhood. Now many colleges have fraternity and sorority step-shows. Led by Ervin Glover our NE "Line One" had the crowd going wild with their intricate steps and tricks. The JROTC also show cased their talents with gun twirling pay homage to those service men and women that fought and died for our freedom.

Every year the talented students work many hours after school to perfect their performances. Then they pour their hearts out for two hours, dancing and singing, stepping and gun twirling. "It's all worth it. It's the least we can do, to show our deepest gratitude for those who suffered for us to live a better life", says Jameela Stone, a senior.

# Spirit Week

There comes a time in the year when you can really show your school colors. A time when it's meant for fun. Let your spirit take over and put your creative minds to work. Something called SPJRJT WEEK!!!!

We do this every year with different events each day. Even though Spirit Week didn't go like it was planned, we still had fun. Instead of a whole week, we only had 3 days of spirit due to testing. On each page of spirit week there are pictures for each day. Just look at all the fun and good times we had without having a regular school day.

Here are some memories from this occasion. These are some flashbacks on our previous events.

**Here is Brittanny Hale. A Raider who knows how to put the show on her. Here she has a spirit mixed with tacky and crazy. Beside her is Samario Dennis obviously thinking she is out of her mind coming to school this way.**

**Tacky Day is the time to wear your tackiest clothes or just the ordinary clothing you would wear at school and with non-matching colors. But the thing is you can put anything on without worrying about people talking about you. Everyone gets a laugh out of this.**

**Sophomore, Breanna Jones, is in her tackiest attire this Tuesday. She is very creative in her clothing on this occasion. She is one of the many few who felt they had to make some people stop to look at them because they did such a good job. They are true Raider supporters.**

**Here is Mrs. Ricks and Ms. Franklin showing their wacky personality on Tacky Day. Students love seeing the administrators participate in Spirit Week. It's nice to know they support the Raiders. It is so amusing to see them in this attire. Don't you agree?**

**Andrea Whitby**

# **Tacky Day**

**Shakiyla Woods**

# 70's Day

70's day is a day you can go back in time to look and dress your best. People are dressed from PIMPS, to Players, to sisters of soul, and people that are there to just boogie down. Now aren't these some Raiders that know how to pose.

One of the most advanced classes, AP Literature, participated in the festivities of 70's day. They looked so authentic in their group picture you would think they grew up in the 70's. You don't have to worry about them getting dressed in the last minute because they looked well prepared.

The 70's day tradition is to as, you all know, start a soul train line at the dance. People went down the line taking turns shaking their groove thangs and just having a good time. This psychedelic event took place in the Lasseter gymnasium where there was only good old 70's music being played.

This Junior Willie Rouse really knows how to put the dyna in 'DYN-AM-ITE'. He looks like he doesn't have to think twice on what he's going to wear. He's in the Spirit and the mood to get groovy. This junior also won the best dressed for 70's day which is no shock. He did a very good job.

Now we come down to the last day, but it's ok because its the best and spirited of all. We had a pep rally in this date and time which turned out to be great. The Raiders put alot of energy in this event. Megan Forsythe did a good job pumping the junior class up. After all this is the last day we have to get our football players motivated for the game.

As you can see in this picture our Raiders have lots of energy but, we know when to settle down to show Mrs. Carter that we are not from the bugabear alley. The Raiders stay with in their limits. There is so much excitement and energy in so little space, we make things seem crowded.

Our dancers also play a big role in this excitement of fun along with the band, cheerleaders, the footplayers and of course the crowd to cheer them on. The Raiders also did a good job on getting dressed. Some people didnt think that was enough, so they also painted their faces with our school colors.

Last but not least, a pep rally isn't just a pep rally without the drum majors from the marching Raider Band. This concludes our Raider Spirit Week memory. I hope you enjoyed.

Jadun McCarthy

Jadun McCarthy was born in Atlanta, GA on October 27. At the age of three, he and his parents moved to Macon, GA. In his younger days he was a very good student. Being the oldest child in his household, he made sure that he was a good role model for his three younger brothers. Mr. McCarthy attended Northeast High School. At Northeast, he was the captain of the scholar bowl and president of DECA and the Beta club. He also played the saxophone in the high school band. He graduated from Northeast with a 3.95 average. After high school Mr. McCarthy attended college to pursue his future endeavors. He graduated from Morehouse with a Bachelor of Arts in English and received a Juris Doctorate in law from the University Of Georgia School Of Law. In college he was a two time national quiz bowl champion. He decided to teach because he wanted to give back to the community. Besides the basic teacher qualifications, Mr. McCarthy is a very simple guy. He once was a contestant on Who Wants to Be a Millionaire. His favorite book is, The Count of Monte Cristo by Alexander Dumas. He currently works at Best Buy and in his spare time he likes to read and sleep. Right now he is living the single life but in the future he plans on settling down and getting married.

Schneika Shuan Shine was born March 11, 1976 in Macon, GA to the parents of Gwendolyn and Emory Center. She was the youngest in the household of one brother and one sister. She attended Northeast High School. At Northeast she was involved in a lot of activities. She was a JV and Varsity cheerleader, played tennis, was a part of the math team, academic bowl, Beta club, DECA, and FBLA. She met her future husband at Northeast in 1992. Her senior year she worked hard at Hardees to pay off her senior dues. She graduated from Northeast with a 3.96 GPA. After graduating in 1994, Mrs. Shine went straight to college. She first attended the University of Georgia but soon transferred to Georgia Institute of Technology. Her plans were to become a Chemical Engineer but after taking the classes for that major she realized she wanted to major in business. She worked on campus and many other places to help pay for things in college. In 1998, Mrs. Shine and her boyfriend, Lukeel Shine, had their first baby girl. In college her apartment burned down while she was pregnant. Even after this tragedy she still kept striving hard to finish school. In 2001, Lukeel and Schneika got married and in 2002 they had their second girl. After graduating from college she began her career. She decided to come and work at Northeast because she missed the whole atmosphere of school. She also misses having no bills in high school and going to class in college. Mrs. Shine is a common lady who enjoys her life and wouldn't change it for the world. She and her family live happily together.

## *Donna Walker*

Mrs. Donna Walker-Thompson was born on November 15, 1972 in Macon, Georgia. Her Mother is Patricia Walker. She is the oldest out of three kids. She has a brother named Sean Walker, and a sister named Sondra Walker. She graduated from Northeast High School as the valedictorian in 1990. Mrs. Thompson participated in various activities like band, Beta club, math club, science club, NHC, and served as a diplomat during her high school years. After high school, she had dreams of becoming a doctor, so she decided to attend Spellman College and received a bachelor's degree in Biology. After college, she was forced to become a social worker. She served the Macon community for 4 years, and later determined that she wanted to pursue another career. She then decided to return back to college, Georgia College and State University, and received her Masters degree in Biology. In 2002, she had an interest in wanting to help others, so she decided to become a teacher at Northeast high school. In November 2005, Mrs. Donna Thompson married Mr. Nathaniel Thompson.

## *Walter Danielly*

Walter L. Danielly, AKA Allé Walt, was born on January 26, 1947. He was born in Fort Valley, GA to the parents Odesa and Charley T. Danielly. He lived in Pennsylvania and Georgia. In Pennsylvania he encountered a lot of segregation but it wasn't as bad as it was in the south. In the south everything, such as the bathrooms and water fountains, were separated. He attended H.A. Hunt high school and maintained good grades. In the household there was a lot of competition between his siblings and him with who got the better grades. They couldn't come home with a C or anything lower. He ran track, played football, and was in a club called New Farmers of America where he judged hogs and cows. He also participated in the math & science clubs and sang in the choir. Since he wasn't allowed to work during school, during the summer he worked in packing houses, packing peaches. He attended Fort Valley State University. His freshman year he ran track. He was in the fraternity Omega Psi Phi. He attained a BS in Social Studies and a minor Sociology. He also got a masters degree in History and Political Science from Georgia College. In 1968, He got married to his wife, Cinderella. He has two lovely daughters, Danielle and Tameka, who both attended Northeast High School. He officially started teaching on January 3, 1967 at Appling High School. He came to Mark Smith in 1969. Coach Danielly wasn't going to teach at first because he was told he had a speech impediment but after he started he fell in love with it. He said that he wouldn't change anything about his life because he has enjoyed everything. His quote for all the students at Northeast High School is, "There's nothing that can beat poverty, than having a good well rounded education. Being able to read, write, and function in a literate society."

## Angeles Jeffreys

Ms. Jeffreys is a great computer teacher who has been working here for the past two years. Back in 1981, she was well known in high school. She was a cheerleader and participated in the math club. Leaving school early and gossiping with a few of her friends was the daily thing for her. In the evening, when she and her friends were looking for fun, they went to the Skating Rink. Her enthusiasm is still with her, as you may have seen from previous pep rallies. Back then, times were not as hard and there was more consideration for people. Of course their president was Ronald Regan. She was well known throughout the neighborhood where teachers and principals resided. The principal at the time was Dr. Donna Way. At this time the vocational building had just opened. She was driving around in a 1981 Plymouth Champ. This was her transportation to her first job at Roses. She stated that the main changes now from then were that the kids had more respect for individuals and authority than suppose to now. In 1981, she graduated from Northeast High School. She attended Georgia State University. She completed six years with her Bachelors and Masters degree. While in college she became a Delta. She married a few years later to Alvin Jeffreys and has been married for eleven years. They have a son together named Ajani.

# Freshmen

**L** When you think about being a Freshman you think "WOW" your first year in high school. You probably start out not knowing anybody and thinking all the upper classmen rule the school. You also start thinking about who you trust as friends. In your Freshman year, you learn a lot of things that might change your life forever. You might even learn that high school isn't all about "CLIQUEs" and who's the cutest person or whatever. It's really about getting your work done and trying to succeed in your later life in college. High school is really not a joke! This year you all have an advantage than other kids. You all are in the 9th grade academy. Where you get to know your teachers more and get the feeling of high school with out all the distraction of the upper classmen.

**C** As you grow up you always think about life beyond your teenage years. As you leave middle school you can't wait to be a high school student. You have the responsibility of doing your work, being on time and paying attention in class. But, high school isn't all about work. It's a time to have fun also. Being with friends and ,making new friends. The 9th grade work might be challenging than 8th grade but you are just growing into a young adults and learning the life of being a teenager.

# Sophomores

Who are Sophomores? Sophomores are the kids who think having seniority over the freshman is an accomplishment. These students are just getting the feel of what it is to be a high school student. They are rowdy, but their generous attempt to grab the spotlight at pep rallies fall short to the true upperclassmen and sometimes even to the class below. Still, as you walk the halls of almost any high school you'll see them acting foolish and being playful with friends. But now that the class of 2008 is well into high school, they should be realizing the importance of coming to school and planning for the future.

When you are a sophomore, you have a better chance of getting your learners and showing off your driving skills. The two years left they need to make the best of it, because when you graduate you will go your separate ways. On top of all these things sophomores have to study a lot to prepare themselves for the next year.

Mr. & Ms. Sophomore have their own opinion about the class they represent. Ariel Glover thinks that they have more power and authority than the freshmen. She says the work is much harder. Now that she is a sophomore, she knows more people and feels more welcome. Darrius James said everything feels the same. His meaning of a sophomore is that he has two more years before graduation. He said the only difference between his freshmen year and his sophomore year is the classes.

# SOPHOMORES

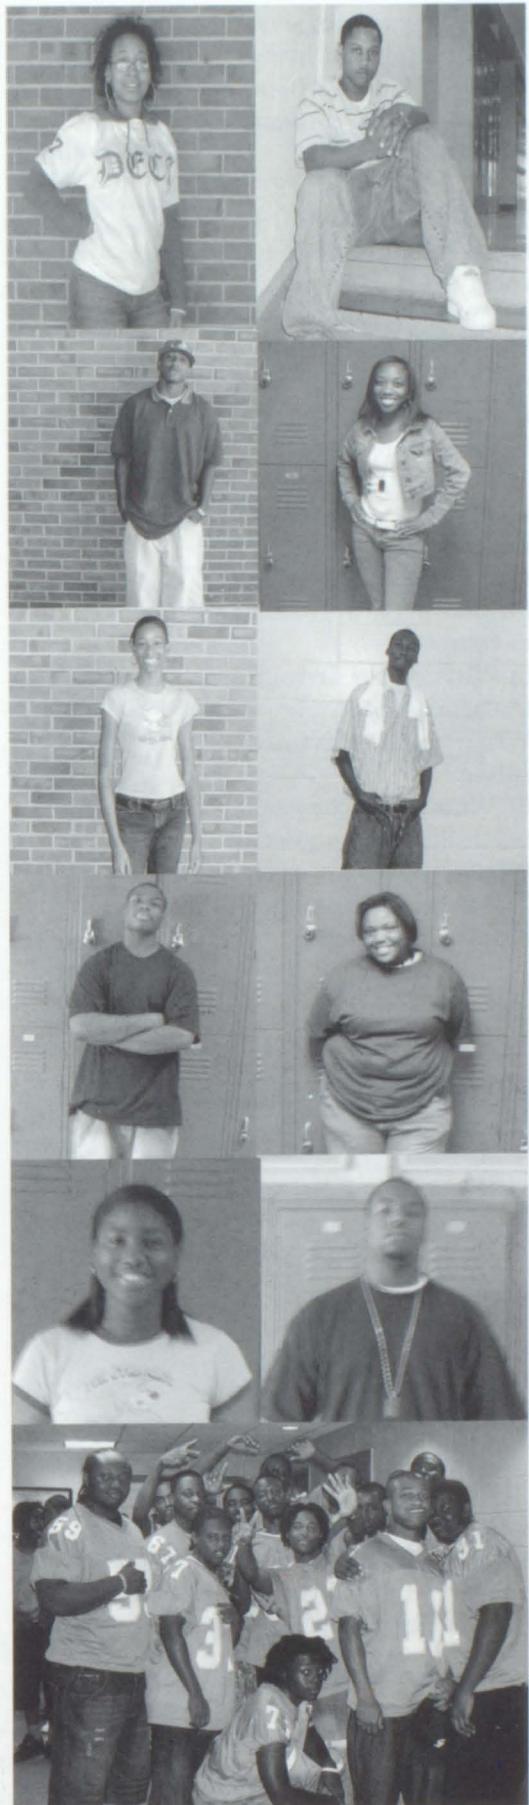

# Juniors

**L** One more. Just one more year until you are the utmost, the highest. Having to look up to no one. Being able to see all others below you. But before you get carried away its all still one more year. Juniors are the backbone of the student body. They can oversee freshmen, sophomores and in a few cases seniors. We have realized that it is time to stop playing around and become serious about what we will do for the rest of our lives.

**A** It is time to let the imageries of freshmen go and the careless lives of sophomores in the past and move into being not as mature as our older brothers and sisters but to only be at a junior maturity level. We still must become serious about college, our careers, and our futures, but we must remember not to burn ourselves out and stay young and fresh.

**E** This is our year when we first turn sixteen or seventeen and we are given the freedom to drive and enter the work force for the first time. Juniors use their abilities to find jobs anywhere possible because between gas, clothes, cell phone bills and just spending money, being a junior is expensive. The eleventh grade is only a practice for the twelfth where we will already have all the knowledge so that we will be successful. It will only be one more year until our graduation day.

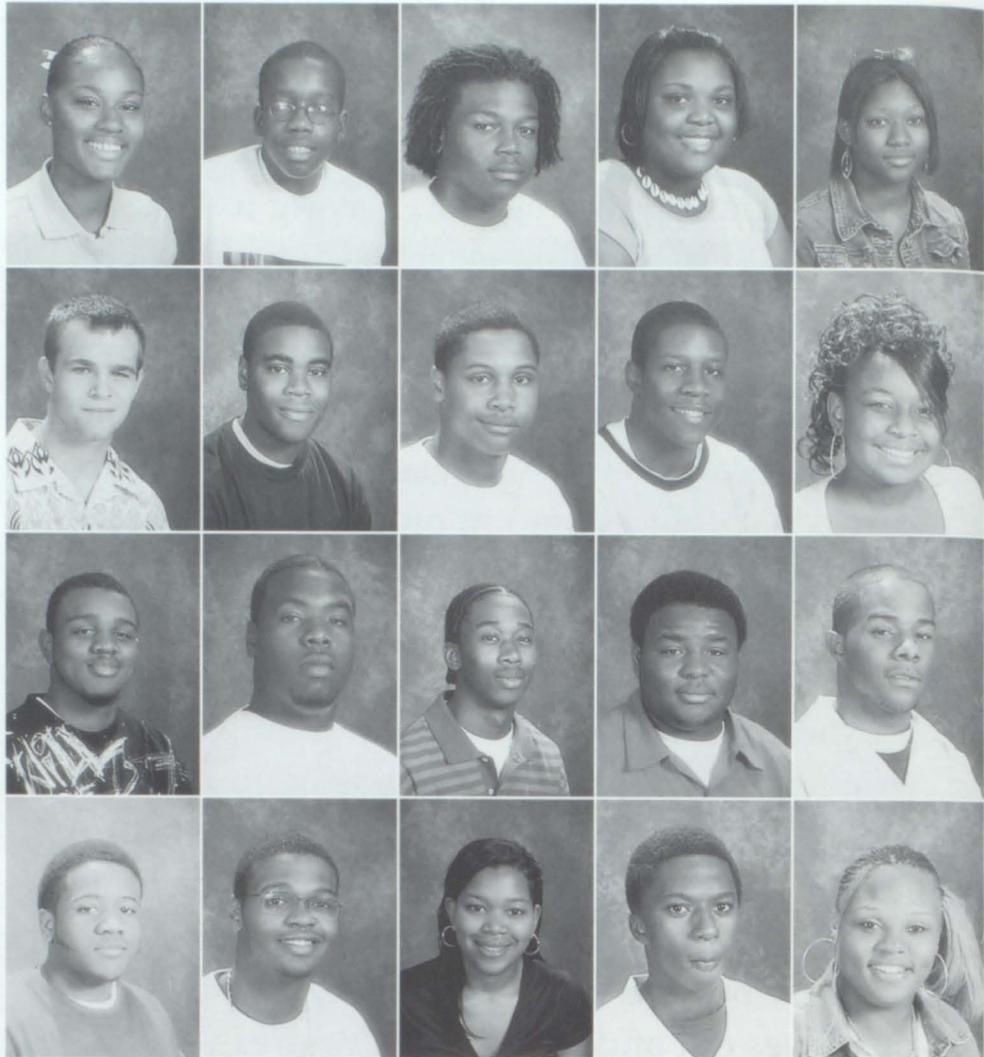

## The Road Ahead

A few juniors participated in a survey about being juniors. Here are their answers to these questions

- 1) What do you think about the current age to receive your drivers permit or license?
- 2) Should We have the right to carry cell phones in school, if so, should there be any restrictions?
- 3) Do we wake up to late or does the school bell ring just a bit too early?
- 4) Who is your favorite administrator/staff member? Why?
- 5) Who is your favorite teacher/coach? Why?  
What is your favorite subject?
- 6) Who is the best at teaching this subject?  
Why?
- 7) What is the best thing about being a Junior?

### Courtney Williams

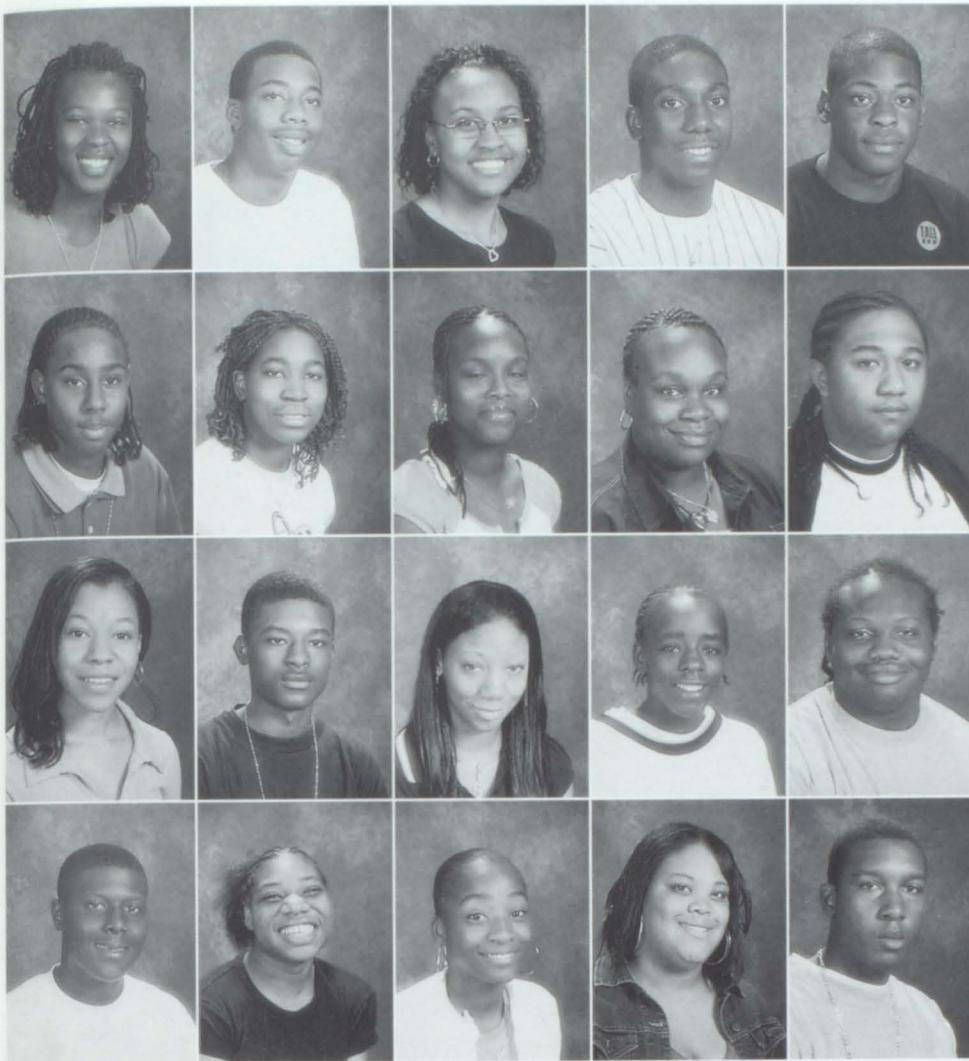

- 1) "I think it's a good thing because it is the time that students start getting jobs and need the reliable transportation."
- 2) "We need cell phones in case of emergencies. They should be kept on silent to keep from distraction because of what happened in Tennessee. I believe that it's a big plus for student safety."
- 3) "For me, the school bell rings just a little too early, about 20 seconds to early,

literally."

- 4) "Coach Clark and Coach Hogan are my favorites, they're real role models they keep it real."
- 5) "Mrs. Lula Williams is my favorite teacher because she is very fair, for the most part"
- 6) "Literature, Mr. Womack, he was a great educator, on the real."

- 7) "Knowing its only one more year here, so stick in there and grind out the rest, I can't fail now."

## Equipment

by: Edgar A. Guest

Figure it out for yourself  
my lad. You've got all that  
the great have had. Two  
arms, two legs, two hands,  
two eyes, and a brain to use  
if you'd be wise. With this equipment  
they all began, so start for the top and say  
"I Can." Look them over the wise and the  
great. They take their food from a common  
plate. With similar knives and forks they  
use, with similar laces they tie their shoes.  
The world consider them brave and smart,  
but you know - you've got all they had,  
when they made their start. You can  
triumph and come to skill you can be great  
if you only will. You're well equipped for

# ass of 2006

the fight you choose, you have arms and legs and brains to use. And people who have risen, great deeds to do started their lives with no more than you. You are the handicap you must face. You are the one who must choose your place. You must say where you want to go. How much you'll study the truth to know. God has equipped you for life, but he lets you decide what you want to be. The courage must come from the soul within, you must furnish the will to win. So figure it out for yourself my lad, you were born with all the great have had. With your equipment they all began, so start for the top and say "I Can."

## What Da' Business Is?

Is it that real talk we speak when we're trying to stunt for our homeboys and homeguls, or when you're trying to holla at dat shawty that just crossed your path?

Wuz happenin'? Slang is a way of life and has a life of its own. Its who we are, our colloquialism to which we place our being. Every generation has its own dialect that it identifies with. From swell, to groovy, to sweet, to smooth, to crunk, slang changes with the times. Its a secret language that, we as youth of today, can understand, but our parents cannot. Every generation has an evolved rendition of the English language to which they can relate to call their own. What will your children come up with next? So, I promise man, you jus' gotta spare da rod. Let's get it, Chea!

Lame!!!!!!

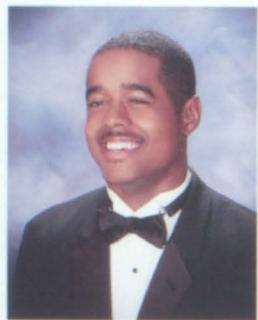

Girls, picture this. You're in class and a boy keeps looking at you, after a while he begins passing notes to you, then he waves and smiles. Suddenly you feel uncomfortable. Even begin to have daydreams of him stalking you. Suddenly, the end of class bell snaps you back to reality. The loud bell shocks you and causes you to sit in the chair longer than you had planned. The memory of the boy comes to you and you panickingly look around hoping he's gone. Then he pops up in front of you and says, "Girl, I may not be Mya, but my love is like whoa!!!" What do you do? Do some boys say the lamest pick-up lines and make you want to slap them? Well here is a list of a few for you to look out for. Some are so lame you don't need help detecting them.

•If you were a booger I'd pick you first!

## First Memory

Imagine you are sitting in your classroom and suddenly you just bust out laughing. You're remembering the good times when something funny happened back in the day. You think to yourself, "MAN! If only I could go back to the old days." The bell rings and you run to your friends and exclaim, "Do you remember that time in Ms. Stevens' room where something crazy happened". Then y'all just start laughing uncontrollably and everyone in the hall turns and looks at you all as if you were crazy. But, how could they know, they're just freshmen! Another memory all seniors should know is when you were all freshmen all the talk was what color should be worn at the first pep rally. The next day comes and it's time for the pep rally. All the freshmen have on white shirts as the so called *rule* says. Ms. Carter gets on the intercom and calls for all Seniors to report to the gym....All junior, then, sophomores. And finally freshman! When you walk in, you feel a rush of excitement. But when it's time to represent your class, they boo you!! You feel **S M A L L ! !**

# Friends, how many of us have them?

Tavorus and Marcus have been friends for five years.

What are friends? That's the age old question that may never be answered because of one reason; there is more than one type of friend. There are six types to be precise: best friends, fun friends, wise friends, community friends, mentor friends and opposite sex friends. It would take an entire book to explain, in detail, the real meanings of these friends.

But, here's a short summary of all six. Best friends, which have the highest rank, are friends that you feel such a powerful connection that the idea of you all being blood related seem tangible. Fun friends are the friends that are already at your door telling you to come with them and have fun before you can pick up the phone to call them.

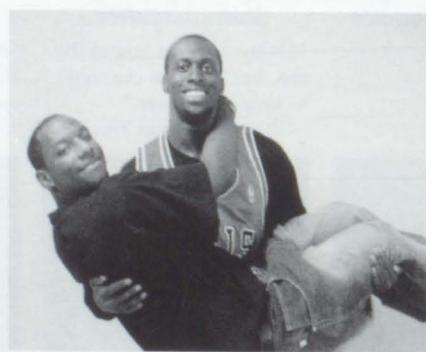

With this type of friend, everything is kept on a public level, almost

nothing personal is revealed to them. A wise friend is someone that has the wisdom you wish you had and will tell you what's right even if you're wrong.

A community friend is another name for an associate. You have only as much contact with this person as others do, which includes only talking or hanging out when you all happen to see each other. Mentor friends are usually friends that have a couple more years on you and are not necessarily wise, but they what it takes to get you where there are their trials and errors.

Daryl has been friends with Christina for 1 year and Shakiyla since 9th grade.

Robert and Chris have been friends for 16 years.

Atticus and Donte have been friends for about 15 years.

## Friends, ones we can depend on

# Friends, how many of us have them?

Opposite sex friends are friends that you have of the opposite that represent and demonstrates how different the sexes are and to give you points of views not seem by your sex. But no matter what type of friend you have all should be there for you, but should also understand when you want to be alone. A friendship consists of the good and the bad even if one outweighs the other? So, what type of friend do you *really* have?

Brittney and Rolando have been friends since kindergarten.

Kenyata and Bridget have been friends since 8th grade.

Shun has been friends with Dreamer and Tiana since 9th grade. Tiana has been friends with Dreamer since 7th grade.

## ~ Walk beside me ~

Don't walk in front of me,  
I may not follow.  
Don't walk behind me,  
I may not lead.  
Just walk beside me and be my friend.  
A real friend is someone who walks in  
when the rest of the world walks out.  
Forgiveness is the glue,  
that repairs broken relationships.  
Nature has given to men one tongue,  
but two ears, that we may hear  
from others twice as much  
as we speak.  
True friends are like diamonds,  
precious and rare.  
A friend is someone  
who knows the song in your heart,  
and can sing it back to you  
when you have forgotten the words.  
A friend is one who believes in you  
when you have ceased to believe  
in yourself.  
It takes a long time  
to grow an old friend.

Courtney has been friends with Amber for 10 years and Quinesha for 6 years.

## Hungry? Why Wait.

Come on! I know that you had one of those times when you woke up very late and didn't have time for breakfast. You're on the way to school with an empty stomach. This meal is the most important meal of the day and without it your brain might not be on full alert for the class work you have ahead of you. Then, your bus comes late so, you have to go straight to class. Your next chance would be to go to lunch or of course to the vending machine. But in the meantime, you're still hungry. The question is, what would you do if you can no longer wait? These are some of the responses we got from your fellow classmates:

"I would ask the teacher to go to the restroom and end up at the snack machine."

Atticus Dillard

"I would think about eating a Twinkie and anything close to it in the snack machine I would buy."

Gloria Aaron

"Somebody go get me something out the snack machine and I'll give ya'll 60 cent."

If you have yet to experience these symptoms, be careful because this disease is contagious. It is easily spread among high school seniors everywhere.

# CDC BREAKING NEWS

# CDC BREAKING NEWS

Below are just a couple of the dangers of contracting this disease.

Colleges can revoke their offer of admission  
Your college performance can be affected

Now that you know of the dangers of coming into contact with this disease, you may be wondering if there is a sure for senioritis. Unfortunately, the only real sure for this disease is graduation.

However, you can utilize preventative care to ensure that you are not infected with this disease. Here's how:

Challenge yourself

Make schoolwork more interesting

Stay involved

Take a college course

Senioritis is extremely easy to catch, and once you have it, VERRRY hard to get rid of. So, try to keep the above-mentioned preventative measures in mind while you enjoy your last few months of high school. It'll be worth it in the end.

# Junior Varsity Cheerleading Team

This year Northeast Health/Science Magnet High School's Junior Varsity Cheerleading team has been a very special year. With a new team and a new coach (Ms. Kenyada Morton), this squad has become the best JV Cheerleading team in the city. This is the first year in a while that we were able to maintain a JV squad this big.

These girls have worked extremely hard; they have shed blood, tears, and sweat. Even though there might have been hard times, they were able to stay friends and maintain that Raider dignity; now that's what's being a cheerleader is all about!

The JV Cheerleading squad consists of:

Mariah Harris (Captain), DeAndria Green (co-Captain), Kimberly Taylor, Kindral Williams, Breanna Andrews, Sierra Barnes, Tamia Burke, Xavia Hutchings (Manager; not pictured), and Kenyada Morton (Coach; not pictured).

# Dedication

"Truly blessing turns to disaster, and disaster to blessing: The changes have no end, nor can the mystery be fathomed." -- Huai-Nan-Tzu

Down through the years a pillar of excellence has risen in our community. She has helped to mold thousands of young hungry minds into educated utopias. She has carried the key that unlocked the chains of ignorance and freed souls from the benighted blindness of oblivion. Two Trillion Three Hundred Fifty One Million Two Hundred Three Thousand Two Hundred Minutes of leadership and determination — determination to raise thousands of children and educate the like; leading their souls to greatness. She was never derelict in her pursuits to educate, teach and inform. She will truly be missed in the educational arena.
